Summary

Full Stack Web Developer with one year of experience, passionate
about crafting dynamic, responsive applications.

Proficient in Next.js, TypeScript, Appwrite, MERN stack, and SQL/
NoSQL databases. Familiar with tools like Shadcn UI for streamlined
UI, Sentry for error tracking, Stripe for payment processing, and
Clerk for secure authentication.

Experience in freelance projects, including an email fetch application
for client needs, and completed an in-house project for the PICT
canteen under Vaishali Kandekar's guidance.

Strong focus on backend architecture, integrating ORMs, API
management, and using platforms like Dribbble for design
inspiration.

Actively enhancing skills in Java, Data Structures & Algorithms;
practicing on LeetCode and CodeChef to strengthen problem-solving
capabilities and technical proficiency.

Committed to advancing in Software Development, aspiring for a
role that challenges and utilizes my skills to drive impactful digital
solutions.
