Education

Pune Institute of Computer Technology (PICT) — CGPA: 9.6

2023 - 2027

Bachelor of Engineering in Information Technology

Pune, Maharashtra

Skills And Relevant Coursework

- Data Structures and Algorithm in Java
- MERN Stack
- Object-Oriented Programming(Java)
- Postgre SQL
- Computer Architecture
- Agile Software Engineering
- MongoDB
- Devops

Experience

PICT Inhouse Intern

2023

Lead Full Stack Developer

Pune, Maharashtra

- Developed a service to automatically allot a coupon to the guest/judges visited in campus for meals for entire day. With Receipt slip format generation where at the end of the day canteen will get how much has been spend on that day.
- Used **React.js** for building dynamic user interfaces. React.js ensures a responsive UI that renders components efficiently. The UI was designed with **Tailwind CSS**, a utility-first framework, enabling quick styling and a clean, modern design. **React Router** would handle navigation between pages, such as the menu, orders, and user profile.
- The backend is powered by **Node.js**, a popular JavaScript runtime, allowing for asynchronous event-driven programming. It likely uses **Express.js** to simplify routing and handle middleware. Used **MongoDB** to interact with your database in an object-document mapping style, ensuring smooth querying and data management. **JWT Authentication** is likely used for securing endpoints and managing user sessions.

Participated in Impetus and Concepts (INC), PICT's Flagship Event

April 2024

Lead Full Stack Developer

Pune, Maharashtra

- **INC AImage** - Seamless Image Editing and Generative AI Web was loved by Industry Experts but due to some bugs and flaws in web wasn't able to crack the hackathon.
- **Technology Leadership:** Developed a cloud-based application using **Next.js**, **TypeScript**, **Clerk Authentication**, and **Sentry** for bug reporting.
- Integrated **Cloudinary API** for seamless media management and security, hosted on **Vercel** for enhanced scalability.
- Delivered a dynamic **user experience** with responsive design, integrating **Unsplash** for resources.

Projects

Wavelength Jewelry Brand | *Freelancing*

December 2024

- Designed and implemented a **MERN stack** application for an **enterprise e-commerce platform** with CMS and non-CMS features.
- Built a robust admin panel for inventory management, order tracking, and **collaboration** among team members.

Stock & Commodity Price Prediction - SIH Project | *AIML + WEB*

September 2024

- Led the development of a **full-stack web application** integrating a **machine learning model** for stock and commodity price predictions.
- Empowered farmers by providing **global opportunities** for market analysis and future pricing.

Sarthi AI - Learning Pathway Generator | *AI+WEB*

January 2025

- Built an innovative platform for personalized **learning pathways**, **collaboration** with professionals, and interactive flashcards/quizzes..
- Leveraged **Next.js**, **Tailwind CSS**, **Drizzle ORM**, and **PostgreSQL** to deliver a seamless user experience.

PICT Nakshatra Lead Web Developer | *MERN Lead*

January 2025

- Designed an immersive website integrating **3D models** using **Three.js**, showcasing a commitment to **technology innovation**.

Medical Appointment Booking System with AI Disease Detection | *HealthTech*

April 2025

- Streamlined **problem-solving** by integrating a **machine learning model** for disease detection.
- Ensured a **secure backend** with **Appwrite Authentication** and government ID verification for **accessibility** and user trust.

Technical Skills

Languages: Java, HTML/CSS, JavaScript, SQL, Next.js , Typescript, Appwrite , TailwindCSS

Developer Tools: VS Code, Google Cloud Platform , Zed , IntelliJ

Technologies/Frameworks: Linux, GitHub, WordPress , CMS , Ubuntu

Leadership / Extracurricular

Lead Full Stack Developer

2023 – Present

Head

PICT

- I've successfully solved over 200 problems across various topics on LeetCode, including algorithms and data structures, to sharpen my problem-solving skills (**Rating : 1470**).
- Achieved a 2-star rating on CodeChef, demonstrating my proficiency in competitive programming and problem-solving (**Rating : 1420**).
- Actively engaged in the **CSI club**, contributing to various tech-related initiatives and fostering collaboration within the community.
- Lead the development of **PICT Nakshatra**, overseeing the technical aspects of the project and ensuring its successful execution.
