

PROJECT EXHIBITION: Abstract Guidelines

Below are the mandatory requirements to be included in the project abstract for submission.

NOTE:

1. Abstract should be of 1 Page.
2. Plagiarism should be less than 10%.

1. Title of the Project

- A clear and concise title that reflects the core idea of the project.

2. Team Details: Team Name

3. Domain of Project (e.g. AIML/DL, Embedded Systems/IoT)

4. Problem Statement

- A brief description of the real-world problem your project addresses.

5. Objective/Purpose

- What does the project aim to achieve?
- Expected impact and significance.

6. Methodology/Approach

- Technologies, frameworks, and tools used.
- Working principles (hardware/software approach).
- Any unique techniques or algorithms applied.

7. Features, Innovation, Novelty of Project

- Key functionalities of the project.
- What makes it innovative or different from existing solutions?

8. Results & Expected Outcomes

- Expected performance, accuracy, efficiency, or usability.
- Any preliminary results or testing insights.

9. Applications & Use Cases

- Where and how can this project be applied in real-world scenarios?
- Industries or domains that can benefit from it.

10. Challenges & Future Scope

- Current limitations or obstacles faced.
- Possible improvements or future enhancements.

11. Keywords (Optional but Recommended)

- 4-5 keywords that summarize the core areas of the project.
